

## FOOD FOR THOUGHT

1. What value do you put on your Headright?

If the nation enters into a TERA, Tribal Energy Resources Agreement, how comfortable are you knowing there would be no Bureau of Indian Affairs, no minerals council, no accountability of the executive branch in regard to payment amount. You need to educate yourself as to exactly what we as Headright owners would need to give up if the Osage get TERA. TERA means the executive branch would take over oil and gas leasing.

2. Are you comfortable with the vote the minerals council made on 5/12/08 stating the nation owns the Minerals Estate?

3. We have no accountability on any gaming money coming into the nation.

4. **WE NEED AUDITS!!!**

5. If the mineral council members cannot uphold the 1906 Act and protect the Minerals Trust, they need to be removed!

The Headright Owners who have entered the Intervener case to protect Headright Owners would appreciate donations to pay for the new attorney. An account has been opened at Osage Federal Bank at 239 E. Main Street, Pawhuska, OK 74056 for Concerned Osages.
